

Make a dice (a cube) and write on each site a prefix and on the last one ?.

Or make cards, 8 cards with each prefix and 8 time with a ?

Each player gets a card. Throw the dice with prefixes dis, un, im, mis, re, ?. Or put the cards in a pile, face down and pick the cards one by one. Look at the prefix on top of the dice or on the card. Cover a word on your card that can be joined with this prefix. When the ? is on top you can choose a prefix. The one who covers all words as the first is the winner.
